

# Polar Profile: Dr. Bree Doering

**Degree:** University of Michigan, Ph.D. 2020

**Location:**

Arctic; Delta Creek

64° 3' N, 146° 20' W

**Science:**

Bree is an archeologist who studies migration and human adaptations of Alaskans in the past 14,000 years. This includes what people ate and the tools they used to survive. Understanding the humans of the past can help people understand the present and future natural world.

**Fun Facts:**

Bree is an Alaskan athlete who is not afraid to get dirty. She is also artistic and loves to tell stories.

**Important Tools:**

Trowel, measuring tape, shaker screen, total station
